### 3. LIVING POSTCARDS "THE NEW FACE OF GREECE"

Friday, April 7 at 8 PM - 10 PM EDT

"The last years with the crisis in our lives, and the big financial insecurity many people started to "think outside the box". Update on the political issues brought up the necessity to believe in our talents and our people while reinforcing their strongest will to build their future based on their own power. For us, crisis, brought the sense of creativity in difficult times. The resounding response to those who believe that the economic crisis has reduced talent, or dreams for progress. The smell of young people, intensely left behind them, that of the fresh ingredients, transformed into design masterpieces, and that this is the beginning of a new Greece. And that's the whole meaning of the Living Postcards global platform .

Join us. #Share\_the\_greek\_light\_everywhere

Living Postcards began simply, 5 years ago with the aim to introduce foreign visitors to the creative activities of Greece and help them escape the stereotypical image they had of our country. Operating as a global platform that is accessible to all, the site is updated everyday. Working to continuously discover creative new brands and people that have a story to tell, the vision behind Living Postcards is one of hope. "

Searching "The New Face of Greece" all over the world, our first stop is New York, the famous "Big Apple". Speakers will share with us their dreams, their own "trip" to success and -why not?- some of their marketing tips. "The most elegant, colourful, creative and modern living postcards that represent Greece, the country everyone would like to live in. Art, gastronomy, fashion, design, music, creative groups, destinations and accommodations are but a few of the areas recommended in the organised database, which addresses its-foreign primarily visitors, introducing "the new modern face of Greece".
